

# THE OFFICIAL STAR TREK: DISCOVERY MODEL STARSHIP COLLECTION

Introducing a new collection of die-cast models from STAR TREK: DISCOVERY. Every model is based on the original CG version that was made to create the effects on the show, and has been carefully painted under the supervision of CBS Studios, making them as detailed and as accurate as possible.

The models measure between 170mm and 250mm long and are made of a combination of die-cast and high-quality resin.

This will be the most comprehensive collection of ships from DISCOVERY ever produced and will feature Starfleet, Klingon vessels and more.

STAR TREK  
DISCOVERY  
THE OFFICIAL STARSHIPS COLLECTION

Highly detailed models based on the original VFX models created for the show.

Officially licensed by CBS Studios, who oversee every stage of production.

Each ship is made of a combination of die-cast metal and high-quality resin.

Every model comes with a collector's magazine that profiles the ship and explores how it was designed.

Special oversized issues for larger ships including the Klingon Ship of the Dead.

The most comprehensive collection ever.

# COLLECTOR'S MAGAZINE

Every model comes with a collector's magazine that has been especially created for the series. Each issue features a profile of the ship, with essential information such as its class, registry and length, plan views of the ship using the original CG model created by the DISCOVERY VFX team, and an in-depth article about the design process behind the ship, with original production artwork and exclusive interviews with the concept artist who worked on the design.

Profiles of every ship, featuring new CG imagery that has never been seen before.

The inside story of how each and every ship was designed with original production art.

THE OFFICIAL STARSHIPS COLLECTION

**NEXT ISSUE**  
U.S.S. DISCOVERY NCC-1031

The second ship in the collection is the hero of the series: the U.S.S. Discovery itself. The model measures an impressive 250mm (approx 10") from the front of the saucer to the back of the nacelles and was based on the original visual effects model.

In the collector's magazine you'll find a profile of Captain Lorca's ship and an extensive article on the design process, packed with original concept art and designer John Eaves' insights into how the ship evolved over time.
